LED Lights at Night

We focus on highlighting the areas you are interested in decorating this season, whether it's for a special event, gathering with family & friends or creating a welcoming atmosphere at your business for holiday shoppers. **We will:** 1. Create a **design** for those areas where decorating can give you the most **VALUE**. 2. Provide a **menu** of different **items and prices** for **You** to pick and choose from to fit your budget. Our Full Service includes a professional **installation, commercial quality product, seasonal maintenance, and removal/storage after the season.** Let us showcase **your** style this season and make your Holidays Hassle Free!

Daytime Decor & Enhancements

Holiday Lighting & Decorating Service
Full Service Program for Both
Commercial & Residential Properties

*It's almost that time of year to spread some Holiday Cheer...
Share the gift of lights this season with family, friends, & neighbors!*

We Provide the Lights & Décor, Installation, Maintenance During Season, Removal & Storage

Here's How It Works:

After speaking with you, we will come up with some options and service items for your property. We will then create a **custom design** including showing you where the lights and decorations would go on your home or business. A **decorating proposal** will also be provided. This will include some ideas that we have (and you can add a few of your own too). Every service item is individually priced. We will also show you examples that demonstrate exactly how each decoration item will look on YOUR property and see the décor on properties that we have done over the years that are very similar to yours .

Then, **YOU** can **pick** and **choose** which of the items that you like best from a **menu** of decorating options. We give you the choice to create a theme that fits your needs and your budgets so you create your own package. We don't offer any "standard packages" or "all or nothing deals". Items range in size from a few hundred dollars to a few thousand dollars and all price points in between. House mounted lights will be installed with durable clips instead of nails or staples (larger décor items such as garlands & wreaths will be secured using fasteners, screws, mason mounts, eyehooks & wires). Lights & décor can be creatively installed along roofs, windows, doors, lawn borders and on trees.

For both our residential and commercial customers, our full -service decorating program includes **our lights & decorations** and a professional **installation** that is custom fit to your home. We also provide **maintenance service** during the holidays. When the season is over we **remove** our décor & lights, professionally **package** and then **store** the décor and lights for next season. Takedown is the most important part of ensuring that the decorations will last for many seasons to come. Our process involves mapping, labeling, and color coding each décor item including cords so that they can be "reinstalled" the same way each year if you so choose. Or you can change it up and try something new!

Ask your consultant about current promotions & incentives for early scheduling & installation options as well as multiyear agreements and prepayments. The holidays are a busy time for everyone and things change weekly based on the weather each year so ask out about current availability & scheduling if you have a specific date or special event you are working on this season.

We look forward to an opportunity to perhaps be of service in the near future!

Our residential customers are located in Hebron, Glastonbury, Marlborough, East Hampton, Colchester, Manchester, East Hartford, Cromwell, Rocky Hill, Newington, Wethersfield, Cromwell, Enfield, Suffield, Bolton, South & East Windsor, and many other surrounding towns.

We currently service several restaurants, gas stations, local business offices, strip malls and shopping centers throughout Connecticut.
